CSE SR100 SELF CONTAINED SELF RESCUER

DISPOSAL OF USED UNITS

To dispose of used units, disconnect the bag and breathing hose and remove the gaskets from the canister. Gently place in a bucket containing a minimum of 15 liters (4 gallons) of clean water. Make sure that the water is deep enough to cover the canister by 10cm. When the bubbling stops, the canister will be expended. Dilute each 15 liters of water used per canister with a minimum of 30 liters 8 gallons of clean water and pour directly into a suitable drain.

Protective Equipment.
